

How We Keep Short-Term Renters Safe In Our Villa

- All doors and cabinets handles & knobs are sanitised.
- All wall & light switches, remote controls, faucets, toilet flush levers, washer & dryer knobs, blind chains & ropes throughout the house are sanitised.
- Alarm keypads, keys & lock boxes are sanitised.
- Disinfecting chemicals are used by our cleaning team in all areas throughout the villa.
- All linens are washed at the highest heat setting recommended by the manufacturer.
- We maintain a minimum 72 hours between guest check-ins to allow for effective cleaning and disinfecting of the villa.

If anyone displays worrisome symptoms during your stay, like a fever, chills, body aches, dry cough or shortness of breath, please ring the closest walk in clinic/ emergency room for their advice what to do.

Should you test positive for Covid-19, please ensure you inform our management team prior to departure so appropriate measures may be taken.
